THE  
ANGLO-CHINESE CALENDAR  
MANUAL.

A Handbook of reference for the deter-  
mination of Chinese Dates, during the  
period from 1860 to 1869; with comparative  
Tables of Annual and Mensural Designations,  
&c., &c. Compiled by WILLIAM FRED-  
RICK MAYERS, H.M.C.S.

Author's Preface.  
Most persons whose avocations or studies  
are connected even remotely with Chinese  
subjects are wont to confess the need of a  
convenient manual of reference for the pur-  
poses of determining dates according to  
either the European or the Chinese method  
of computation; and a system of compar-  
ison for the names attributed to years,  
months, and other periods is also frequently  
a desideratum with translators and  
readers of Chinese literature. The com-  
piler of the following tables has thought,  
accordingly, that their publication in a  
convenient form may prove useful, although  
much yet remains to be done for the elab-  
oration of comparative calendars, etc. that  
should leave nothing to be desired. With  
the exception of the Cyclical Table of  
Years, and the Table of Solar Terms, both  
of which were originally compiled by Dr.  
Morrison, and afterwards republished with  
improvements in Williams' Commercial  
Guide, from which (with some alterations)  
they are now culled, the whole of the water-  
marked material in the following pages is for  
the first time made accessible to general  
reference.
